- **[Job Title]** with **[number]**+ years of experience in **[key skill / requirement 1 from the job description]**, **[key skill / requirement 2 from the job description]**, and **[key skill / requirement 3 from the job description]** across the **[industries/sectors you've worked in].**

PROFESSIONAL EXPERIENCE

Database Developer / Web Developer (Laid off due to company-wide downsizing) **Oct 2016 - Aug 2023**
Monovo | Pleasant Grove, UT

- **Created HIPAA-compliant databases (Firebase, PostgreSQL)** that reduced secure data access latency by 30%, directly increasing user satisfaction and operational efficiency.
- **Worked cross-functionally with Product, Management, and Testing teams**, improving database integration and reliability, resulting in a measurable 40% reduction in user-reported downtime incidents.
- **Delivered concise technical documentation and proactive user support**, resulting in a 25% decrease in support tickets and increased user proficiency and satisfaction.
- **Developed and delivered onboarding and training programs for new web and database employees**, clearly communicating Monovo's mission, tools, and best practices, empowering them to efficiently assist healthcare providers and positively impact patient experiences.
- **Engineered scalable cloud solutions using AWS, Docker, and Kubernetes**, optimizing resource utilization and cutting cloud infrastructure costs by 20% while maintaining full HIPAA compliance.
- **Led technical training sessions and mentoring programs for healthcare provider teams**, enhancing internal technical skills and reducing onboarding time for new users by approximately 30%.

Entry-Level Software Engineer **Jul 2015 - Sept 2016**
Horrocks Engineers | Pleasant Grove, UT

- **Developed and maintained 5+ web and mobile applications** using Angular and React, enhancing user experience and reducing load times by 20%.
- **Assisted in migrating 3 legacy systems to modern platforms**, reducing operational costs by 25% through optimized data handling and system automation.
- **Translated 10+ business requirements into detailed technical specifications**, reducing rework by 20% and ensuring seamless implementation of new features.
- **Migrated 10,000+ records from outdated systems**, improving data accuracy and reducing processing errors by 15%.
- **Enhanced system functionality by 18%** by converting complex business needs into actionable development tasks and maintaining clear communication with stakeholders.

Family Caregiver **August 2024 - Mar 2025**

- **Managed daily schedules and provided emotional support** during an extended caregiving period, developing strong organizational skills to maintain smooth routines.
- **Communicated effectively with family and medical personnel,** balancing multiple tasks and adapting quickly to changing situations, demonstrating reliability and flexibility in dynamic environments.

Freelance Web Developer **Nov 2023 - May 2024**
Independent Software Development Project | Draper, UT

- **Started developing a real estate web application using Angular** in collaboration with real estate professionals to help homeowners secure better offers for quick sales, integrating RESTful APIs, managing source control with Git, and hosting the platform on Firebase and AWS.

EDUCATION

- **Bachelor of Science & Computer and Information Science** | Brigham Young University (2009 - 2016)

TECHNICAL SKILLS

Programming Languages: C#, SQL, PL/SQL, JavaScript, TypeScript, HTML, CSS

Web Development: Angular, React, Node.js, RESTful APIs, Full-Stack Development

Database & Data Management: SQL Server, PostgreSQL, Oracle DB, Firebase (Firestore), MongoDB

Tools & Frameworks: Git, Azure DevOps, Jira, Agile/Scrum, Visual Studio

Cloud & Infrastructure: AWS, Docker, Kubernetes, Linux Environments

Data & Security: Data Modeling (ER Modeling), Schema Normalization, HIPAA Compliance, Encryption, Database Performance Optimization

CORE COMPETENCIES

Database Management • Data Security (HIPAA Compliance) • Cloud Data Integration

Data Modeling • RESTful API Development/Integration

Performance Optimization • Troubleshooting • Technical Documentation
